Subject: Re: Draft Hazardous Waste Determination

I got back Mary's auto reply that she is out for a while. A copy with comments is attached for those of you at EPA in case we want to discuss these Thursday during our call. Do you still want to plan on having the call?

Mary,

I'm not sure if you use Google Docs but I just shared a copy of the Haz Waste Determination document with you through Google Docs. We did not have any edits

to the document, only a few questions. Whether you decide to answer the questions through clarifying language in the Determination or we discuss them in one of our bi-weekly meetings, either is fine for us.

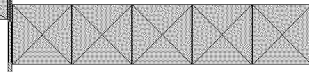

If you can't access the document, please let me know and I'll provide it in another format. Thanks.

Hi Alex and Amie,

I have attached our draft Hazardous Waste Determination regarding the materials in the various contaminated buildings on the Dico site. Before we finalize this document, we want to give you a chance to review it.

Also I want to let you know that I will not be able to join the call tomorrow due to a meeting in St. Louis. Several other EPA folks will be on the call and will keep me informed of the discussion.
